PROFESSIONAL EXPERIENCE

PT Multi Flashindo Karisma (MFK) | Jakarta

Jul 2024 - Present

Videographer & Video Editor - expanded scope across content, website, SEO, AI, and campaigns

- Serve as the sole PIC for website content, structure, SEO implementation, and ongoing WordPress updates across product, brand, category, and campaign pages.
- Led the transition from default/catalog-style pages into a more structured commercial ecosystem with category hubs, brand authority pages, internal linking, buying considerations, and WhatsApp conversion paths.
- Produce 10-15 content assets per month and have delivered 100+ commercial videos for Instagram, TikTok, Facebook, YouTube, and LinkedIn.
- Manage content publishing and campaign execution through Meta Business Suite, including promotional campaigns and event support.
- Develop AI-assisted workflows for research, ideation, scripting, subtitles, visual planning, and production standardization.
- Create SOPs and repeatable workflows used to improve content, website, and cross-functional execution with Marketing, Sales, and Management.

SELECTED PROJECTS

MFK Website Digital Transformation | Project Lead / Sole Website PIC

Standardized product, brand, category, and campaign pages while implementing taxonomy, on-page SEO, internal linking, CTA paths, content governance, and AI-supported workflows.

Outcome: Shifted the website toward a measurable lead-generation channel, recording 145,966 search impressions, 1,307 organic clicks, and 88 website leads in June 2026.

Integrated Clearance Sale Campaigns | Project Lead

Built campaigns from zero through landing pages, QR/barcode product information, promotional content, product demonstrations, event activities, and high-reach account collaboration.

Outcome: Increased event visibility, customer attendance, inquiries, and brand traffic through integrated online and offline activation.

Influencer Collaboration Program | Project Lead

Handled influencer research, outreach, planning, scripting, shooting coordination, and publishing from start to finish.

Outcome: Generated leads and sales opportunities while strengthening brand engagement and extending digital reach.

AI-Assisted Content & Website Workflow | Workflow Designer

Built repeatable workflows using ChatGPT, NotebookLM, Google Flow, and ElevenLabs for research, scripting, voice-over support, subtitles, visual planning, and standardization.

Outcome: Improved execution consistency and reduced repetitive manual work across content and website production.

EARLIER EXPERIENCE

Lavergne Jan-Jul 2024

Videographer & Video Editor

- Produced visual content for luxury brands and adapted edits to social media formats and audience trends.
- Collaborated on creative execution from production through post-production.

Hurricane XCS Indonesia 2022 - 2023

Videographer & Video Editor

- Produced promotional video and product-focused content for digital channels.
- Handled shooting, editing, and content adaptation for campaign requirements.
